POCKET PLASTIC WELDER

Entry-level solution in MWM's line up for plastic repair. Compact and versatile, it always grants optimal results at an accessible price tag. It comes with a starter kit of plastic welding rods (PP), a scraper and a roller for the surface finish.

Pocket PW can be upgraded with MWM's Nitrogen (N₂) generator to improve the overall quality of the welds and ease of use.

TURN ON & REPAIR

The welding machine is calibrated during assembly using the most versatile temperature and airflow settings, ensuring excellent and repeatable results in every situation.
