

ALLVIS CONNECT

Our strength is in the flexibility.

With **Allvis Connect** it is easy to check the damaged vehicle in all three dimensions. You can choose to do a comparative measurement or use the included software and send the length values wirelessly from the measuring system to your PC. Allvis Connect will help you work in a quick, accurate and effective way.

FLEXIBILITY

You can use Allvis Connect where it suits you best - on the lift, the bench or the floor.

ADVANTAGES

- » Wireless transfer of length measurement to PC
- » Short start-up time
- » Simple and quick measurement of the vehicle
- » Documents the measurement operation by printing
- » Ability to save your documents on your computer
- » Continuous update of new models
- » Self centering magnet attachment enables measurement with one person

Art.no. AVS500

Includes a complete measuring system with adaptors, software and a 6 months database subscription.

Allvis Connect is delivered in a heavy duty storage case.
