German Automotive Tool Innovator

POCKET LEVER

The "Pocket Lever" is a great tool for trim removal and panel manipulation with precision and care.

Featuring a rubber handle, the Pocket Lever ensures a comfortable and secure grip, allowing for extended periods of use without discomfort. Its sturdy design guarantees that it won't slip off during operation, providing peace of mind and enhancing efficiency.

Ideal for panel removal and intricate tasks, the Pocket Lever functions as a mini pry bar, offering remarkable leverage and control.
