SAFETY INFORMATION

In order to maintain the high safety standard of the unit, you should ensure the following:
- that the unit is installed in the manner prescribed in this manual
- that the unit is used in the manner prescribed in this manual
- that the unit is maintained in the manner prescribed in this manual
- that only original spare parts are used
- that this manual is kept available and in legible conditions close to the unit.

WARRANTY

Hedson Technologies AB will replace all faulty parts on the DRESTER Quick Rinse with new parts in accordance with the "Warranty Terms for Hedson Technologies AB No. 7.2-8". This warranty only remains valid if the machine is used in the prescribed manner, and it does not cover the cost of repairs. Always state the machine's serial number and year of manufacture if making a claim under warranty. These can be found on the machine's silver-coloured rating plate. The warranty terms may vary from country to country. The importer can provide you with details.
